

Dr. Jean-Paul Rodrigue

Professor, Department of Global Studies & Geography, Hofstra University

Dr. Rodrigue sits on the international editorial board of the Journal of Transport Geography, the Journal of Shipping and Trade, the Asian Journal of Shipping and Logistics, and the Cahiers Scientifiques du Transport. He is a board member of the University Transportation Research Center, Region II of the City University of New York, and is a lead member of the PortEconomics.eu initiative as well as of the International Association of Maritime Economists. Dr. Rodrigue was a member of the World Economic Forum Global Agenda Council on the Future of Manufacturing (2011-2016). In 2013, the US Secretary of Transportation appointed Dr. Rodrigue to sit on the Advisory Board of the US Merchant Marine Academy, a position he held until 2018. He is also the New York team leader for the MetroFreight project about city logistics. He regularly performs advisory and consulting assignments for international organizations and corporations and is interviewed by the media over transportation-related matters.

Dr. Rodrigue has authored 6 books, 32 book chapters, more than 50 peer-reviewed papers, numerous reports, and delivered more than 150 conferences and seminar presentations, mostly at the international level. His paper about port regionalization became one of the world's most cited work in maritime transportation. His book about the global economic space, has been published by Les Presses de l'Université du Québec and won the 2001 PricewaterhouseCoopers award (Prix du livre d'affaire) for the best French business-related book published in North America. His high impact textbook, The Geography of Transport Systems (Online Version), was first published by Routledge in July 2006 and is now in its fifth edition. His co-authored textbook, Port Economics, Management and Policy, will be published in 2021. He is also co-editor of the Sage Handbook of Transport Studies. In 2019, he was the recipient of the Edward L. Ullman Award for outstanding contribution to the field of transport geography by the American Association of Geographers.
