Chantal Ritcey

VP, Customer Solutions, AltaML

Chantal is a skilled professional with over two decades of public sector experience, navigating all levels of government. Specializing in digital transformation and program management, Chantal has excelled in diverse industries, showcasing exemplary skills in business development and stakeholder engagement. Currently serving as the Vice President (VP), Customer Solutions at AltaML, Chantal oversees the overall success of customer engagements, including the development of artificial intelligence and machine learning solutions from proof-of-concept to deployment, with a keen focus on delivering offerings that are competitive in the market. Prior to this role, Chantal held the position of Senior Executive Business Partner - Public Sector at AltaML, where she played a pivotal role in driving strategic planning and innovation. Her influence still extends to the success of AltaML's expanding talent accelerator program, GovLab.ai. Chantal holds a Master of Library and Information Studies from the University of Alberta. Connect with Chantal on LinkedIn.
