

Dan McFadyen

Mr. McFadyen (B.Sc. (Mechanical Engineering, Manitoba)) is a professional engineer with over three decades of experience in the public service and the energy sector.

Following his tenure as Chairman of the Energy Resources Conservation Board (ERCB) from 2008 - 2012, Mr. McFadyen joined The School as an Executive Fellow and served as the Director of the

Extractive Resource Governance Program (ERGP) from 2013-2017. He has served as the Mexico Liaison for the ERGP as well as a contributor to the Mexico Energy Reform project.

Prior to joining the ERCB, he was appointed Alberta Deputy Minister of Energy in January 2006 where he was responsible for a diverse resource development portfolio that included oil, oil sands, natural gas, petrochemicals, electricity, coal and minerals.

Earlier, Mr. McFadyen has served as: Vice President, Regulatory Affairs and Public Policy with the Canadian Energy Pipeline Association (CEPA), Deputy Minister of Energy in Nova Scotia, key positions in the Saskatchewan Research Council, and the Saskatchewan Departments of Industry and Resources and Energy and Mines.

Over his career, Mr. McFadyen has developed expertise in energy and mineral policy and planning including strategic planning, mineral tenure policy and practice; fiscal regimes; regulatory policy and practice; research and technology and energy related environmental issues such as climate change. Mr. McFadyen serves as an independent Director on the Board of Directors of Petroleum Technology Alliance Canada.
