

**Des Dumais** is the owner of KIHEW FabCo LP and a proud member of Kahkewistahaw First Nation in Treaty 4, in Saskatchewan.

Des has worked for over 20 years in the oil and gas industry in North East BC. Des' current company partnership with his First Nation community is a piping and structural steel manufacturing facility, in addition to providing cutting edge 3D laser scanning and CAD modelling services. He has assisted his First Nation community in establishing a fully automated 55,000 sq. ft. fabrication facility in Melville, Saskatchewan. He has a long track record of developing positive working relationships with Canadian industry partners.
