

Mr. José-Antonio Monteiro is an economist in the Economic Research and Statistics Division of the World Trade Organization (WTO). His research interests include trade and sustainable development, including trade inclusiveness. He co-authored the Advanced Guide to Trade Policy Analysis: The Structural Gravity Model. He also coordinated various WTO reports, including the World Bank-WTO Report on "Trade and Women" and the 2017 World Trade Report on "Trade, Technology and Jobs". He also recently co-edited the book "Making Globalization More Inclusive". Prior to joining the WTO, he worked in the International Labour Organization in the Trade and Labour Program. He holds a PhD on trade and environmental policies from the University of Neuchatel, Switzerland and a Master in finance and economics from the University of Geneva, Switzerland.
